SITUATION SUMMARY

California Department of Public Health Zika Virus

The Medical and Health Coordination Center (MHCC) continues to be activated in response to the Zika Virus Disease and Meningococcal Disease Outbreak. This situation report reflects only Zika Virus activities.

The California Department of Public Health (CDPH) and Emergency Medical Services Authority (EMSA) are currently the only Emergency Function 08 (EF 08) partners at the state level reporting on this activation.

- The MHCC is coordinating with EF 08 partners, healthcare facilities and local health departments (LHDs) to ensure responses are timely and accurate.
- CDPH and EMSA Duty Officer Programs are monitoring the Zika virus disease outbreak after hours and remain in communication with the Regional Disaster Medical and Health Coordination (RDMHC) and the Medical Health Operational Area Coordinator (MHOAC) Programs throughout California.

Zika Virus

- As of Friday, 10/28/16, there have been 353 travel-associated Zika virus infections in California.
- This number is an increase from 347 cases (updated number from 348) reported in the last operational period.
- CDPH centers and programs continue to monitor Zika virus disease and provide information to the MHCC related to their specific activities on a weekly basis.

Snow							
Heavy Rain/ Flash Flooding							
River Flooding							
Severe Weather							
Heat							
Tropical							

-  High Threat
-  Moderate Threat
-  Slight Threat
-  No Discernible Threat

WEATHER SYNOPSIS BY REGION

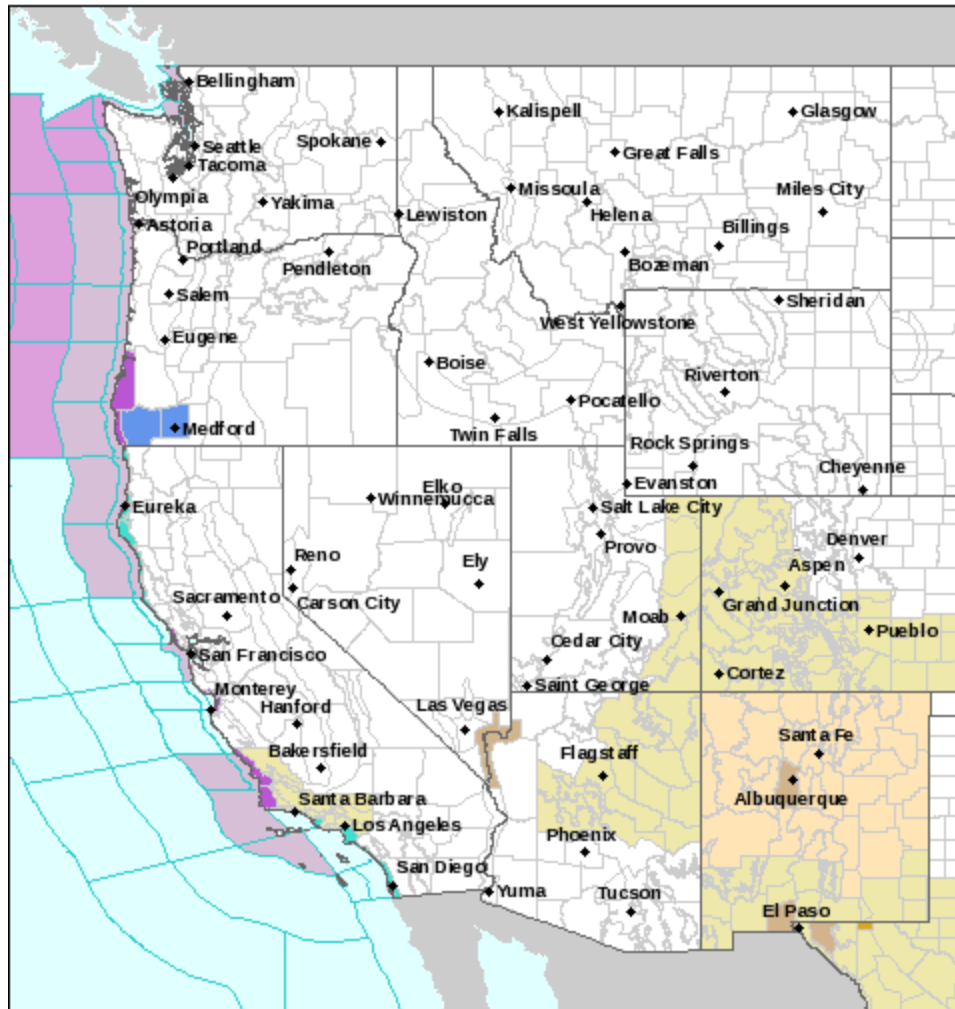

NORTHERN CALIFORNIA

The region will be in between a high pressure ridge to the east and a broad low pressure trough off shore for the next few days. This will keep our weather quite seasonable with a mix of sun and high cloudiness. Some areas will have somewhat gusty winds at times as well. The warmest inland areas will reach into the low 70s. Freezing overnight lows in the mountain valleys in particular will continue especially when skies are mostly clear. Areas of overnight and morning valley fog are also possible ('tis the season). Saturday afternoon a weather system will be moving ashore and spread at least light precipitation to much of region through Sunday, except areas east of the Cascade/Sierra crest are not likely to see much if any. Lingered clouds and a few light showers may continue into early Monday, followed by a short break before another system moves ashore Tuesday with a bit more light precipitation, mainly for the northern areas. Following another short break between systems Wednesday, a more widespread, sustained period of light precipitation appears to be possible the end of next week. Snow levels will be up and down with each weather system, and the lowest levels should be mostly around 6000-7000 feet through next week.

SOUTHERN CALIFORNIA

Low pressure situated to the southeast along with an offshore pressure gradient will continue to generate northeast winds today. At the current time, the strongest winds are over Ventura, northern Los Angeles County and Orange County where some gusts to 35 mph are occurring. Expect these winds to be strongest this morning before gradually subsiding this afternoon. Sunny skies and well above normal temperatures will continue over much of Southern California today with highs reaching the lower 90s this afternoon. Minimum relative humidity (RH) will drop into the 8-12% range in the lower foothills and urban interface areas from Point Conception southward, but stable conditions and light winds aloft will continue to allow for night through morning fog in the San Joaquin Valley the next two days. Friday, low level flow will transition from offshore to onshore which should begin to cool temperatures back to near normal readings over the weekend. Some mid and high clouds may reach the desert and San Bernardino and Cleveland National Forest Friday, but any associated precipitation should remain over Arizona and northern Mexico. A trough will bring another round of rain to the northern part of the state this weekend and a few showers may occur over Monterey County and the Sierras north of Yosemite National Park Saturday night and Sunday. Elsewhere, expect mostly sunny skies, light winds and near normal temperatures over the weekend. Marine layer stratus should make a return to inland valleys by Sunday. Warmer weather is expected to return next Monday and Tuesday.

CAL OES LAW ENFORCEMENT MISSIONS

New Cal OES Law Missions

- **2016-LAW-27900, 11/02/16, 1606 hours:** Nevada County Sheriff's Office (NCSO) requested (15) Search and Rescue (SAR) Type-2 ground searchers, (3) SAR Area K9s, and (2) SAR Trailing K9s to assist in searching for a missing 64 year old male from the North San Juan area of Nevada County. The missing person (MP) was last seen on 10/27/16, but was not reported missing until 11/01/16. The requested resources met at the NCSO Headquarters in Nevada City on 11/03/16 for briefing at 0700 hours. After the briefing, all SAR resources caravanned to the search area, which is at an elevation of 3,000 feet with moderate incline and thick undergrowth. On 11/02/16, at 1709 hours, Cal OES Law Enforcement Branch (LEB) began coordinating the response. **Update: 11/02/16, 2110 hours,** State SAR K9 Coordinator advised (1) SAR Area K9 and (2) SAR Trailing K9 teams responded to assist NCSO. El Dorado and Placer County Sheriff's Office agreed to fulfill the request for SAR ground searchers. At 2121 hours, LDO updated NCSO. **Mission Ongoing.**

Ongoing Cal OES Law Missions

- **2016-LAW-27825, 10/28/16, 1806 hours:** Orange County Sheriff's Department (OCSD) on behalf of Newport Beach Police Department requested (4) Human Remains Detection (HRD) K9s to assist in searching for a missing 59 year old male suspected of committing suicide by firearm three weeks ago. The requested resources met on 10/30/16 for briefing at 0800 hours at the Newport Ridge Community Park, 6331 Newport Ridge Drive East, Newport Coast. Cal OES Law Enforcement Branch coordinated the response. **Update: 10/28/16, 1936 hours,** Cal OES State SAR K9 coordinator advised (4) HRD K9 teams and one flanker deployed 10/30/16. LDO updated OCSD. **Update: 10/30/2016, 1952 hours,** OCSD advised mission completed with no find and Newport Beach PD did not request any additional SAR Mutual Aid assistance. All K9 teams returned to home base. **Update: 11/02/16, 1318 hours, Mission Reopened,** OCSD on behalf of Newport Beach PD requested the same resources as 10/30/16, 4 HRD K9 teams. Newport Beach PD believes they have additional search areas that were not covered on 10/30/16. The second request for resources are to meet at the Newport Ridge Community Park, 6331 Newport Ridge East, Newport Coast, on 11/06/16 for briefing at 0800 hours. Cal OES LEB is coordinating the response. **Mission Ongoing.**

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2016-Coastal-26848:** Caltrans - Hazmat Manager for DROC for the Clayton Fire in Lake County. On Scene 09/28/16 - 12/16/16. **Mission Ongoing.**
- **2016-Coastal-26842:** CDFW - Oil Spill Prevention Specialist for the Clayton Fire in Lake County. To be On Scene 10/03/16 - 12/16/16. **Mission Ongoing.**
- **2016-Coastal-26477:** Cal Recycle debris removal assistance requested for the Clayton Fire in Lake County; on scene through Mid-December. **Mission Ongoing.**
- **2016-Coastal-26412:** DTSC clean up assistance requested for the Clayton Fire in Lake County; on scene through Mid-December. **Mission Ongoing.**
- **2016-Southern-25043:** California Department of Public Health to conduct housing and food inspections for detention facilities through 12/31/16. **Mission Ongoing.**
- **2016-Southern-25037:** California Division of Drinking Water to conduct surface water inspections for 11 water systems and train new hires through 12/31/16. **Mission Ongoing.**
- **2016-SOC-24742:** Hazardous Waste Task Force to segregate, collect, and package hazardous waste at the 250+ destroyed and damaged structures in the Erskine Fire burn area. This is expected to be in place through December 2016. **Mission Ongoing.**
- **2016-IREOC-21748:** Tasking Cal Trans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2015-IREOC-19846:** One RAWs weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017. **Mission Ongoing.**
